

Sectioning commands with critical notes in parallel columns

April 29, 2015

This file provides examples of using sectioning commands with `eledpar`. The section titles are in the line numbering, and have critical notes.

The left and right sides are put in columns. We use `\eledsectnotoc{L}` to say we want the right titles be added to the table of contents, and not the left titles. We also use `\eledsectmark{R}` to use the right side to add \LaTeX marks for headers.

We use the `\eledxxx` commands, each of them in their own `\pstart...\pend` group.

Page clearings are manually added before chapter with `\beforeeledchapter`.

Contents

1	Right chapter	3
1.1	Right section	3
1.1.1	Right subsection	3
1.2	Right section	4
2	Right chapter	5
2.1	Right section	5
2.1.1	Right subsection	5
2.2	Right section	6

Chapter 1

Left chapter

2 I use git to manage some pack-
3 ages. I would like to add a pre-commit
4 hook, to check if I have forgotten For
5 now, I have a minimal pre-commit,
6 which tests only the blank spaces at
7 ends of lines, but not the forgotten..
